PROJECTS

1. Portfolio Website — Personal Web Portfolio

A personal portfolio website showcasing my web development skills, experience, and featured projects. Built using **React** and **Tailwind CSS**, with smooth navigation, responsive design, and elegant UI. Includes sections for projects, resume download, and a contact form with email integration. <https://portfolio-omega-vert-79.vercel.app/>

2. My Shop — Next.js E-commerce Web App

Built a modern shopping website using **Next.js**, featuring authentication, product listings, cart functionality, and a global context for state management. Implemented routing with **Next.js App Router** and deployed the app on **Vercel** for optimal performance. <https://my-shop-nextjs.vercel.app/>

3. QuizApp — Interactive Quiz Application

Developed a responsive quiz application using **React** and **Tailwind CSS** that enables users to test their knowledge across multiple categories and difficulty levels. Implemented features including timed questions, score tracking, and progress indicators, with comprehensive quiz data management and dynamic user feedback. <https://quiz-app-react-eight-omega.vercel.app/>

4. usePopcorn — Movie Explorer App

Built a modern movie explorer app using React and the OMDb API to search, explore, and rate movies. Implemented features such as movie search, detailed movie info, and a personal “Watched” list with ratings. Used React Hooks for state and side-effect management, and Local Storage for data persistence <https://usepopcorn-eight.vercel.app/>
